Last Saturday night the sawmill and one half of the large mill at Duncan City were shut down for the season.

W. & A. McArthur's lumber piers are piled full and they are now piling lumber on the lower end of their steamboat dock.

Some miscreant one night last week cut the bell rope in the tower at the Town Hall. Such pure cussedness should be punished.

The lumber manufacturers of the Saginaw Valley met in East Saginaw last Saturday and recommended that the boom companies close their operations and raft out no more logs this season.

The nomination of Charles R. Heary, of AuSable, as the Republican candidate for Senator from this, the 29th, Senatorial district seems to meet the unanimous approval of the Republicans of Cheboygan county.

The U. S. Revenue cutter Andy Johnson was in port Tuesday morning. The officials visited the several craft in the harbor, examined their papers and we understand found all in accordance with the requirements of law.

Republicans and all in favor of the election of Blaine and Logan, should remember the meeting of the Blaine and Logan club this evening. Hon. Geo. W. Bell, E. Z. Perkins, Judge of Probate, and Geo. E. Frost, Village President will address the meeting.

The Rector of St. James' church requests us to say that it was Mr. Noyes of Buffalo, and not Mr. Coyle of Cleveland, who presented a bell to the church a week or two ago. Mistakes will happen in the best regulated institutions. We apologize, but they have the bell and we are glad of it.

Official notice has been given that on and after to-day a fixed red light of the 4th order will be shown from the light-house now completed at the extremity of Harbor Point, to guide vessels into Harbor Springs. The apparatus will light the entire horizon, the focal plane being 41 feet above the lake. The light will be seen in clear weather from the deck of a vessel 12 1/2 miles distant. Mrs. Williams who has been keeper of the Beaver Island light has been commissioned keeper.

We are in receipt of No. 3 of "Descriptive America," an illustrated monthly which devotes each issue to the description of some one of the states. The present number is devoted to Michigan and sets forth its marvelous advantages in an able manner. Several of its illustrations have a local interest in this section. It is finely printed, well edited and in fact is a valuable work, and is furnished for the small sum of 50 cents per number. Michigan people ought to invest largely in the August number and circulate it widely. G. H. Adams & Son, Beekman street, New York, are the publishers.

The Nashville students at the Opera House next Thursday evening, Oct. 2nd.

Archie McGregor, Steward of the Van Raalte, Saturday while scuffling with another employee on the boat, fell and dislocated his shoulder. Fortunately there was a physician on board and he put the shoulder in place again.

A friend of H. A. Blake sent him a pet from California by express. It is live tarantula and was twelve days coming through. It was on exhibition yesterday at Drs. T. A. & C. A. Perrin's office. For handsome it is not a success.

A five o'clock tea was tendered Mrs. J. H. Kintz by a number of her lady friends at the residence of Mrs. Jonas Wheeler Wednesday. About twenty-five ladies were present and a very pleasant time was had. Mrs. Kintz leaves shortly for Clyde, Ohio, to spend the winter.

Our cotemporary publishes a long tirade in his last issue trying to prove false the statement made in the TRIBUNE about a laboring man saving \$400 in two years. We would respectfully refer them to John W. McGinn, president of the First National bank of Cheboygan, for confirmation of the statement.

Monday a captain of a steam barge in the river got into an altercation with one of his men and in the melee the captain drew a knife and slashing away cut quite a long gash in the breast of the man making a severe but not dangerous wound. Dr. DuPaul was visited and took several stitches closing up the cut. A woman with a revolver, also played a part in the rumpus, but did not shoot.

The Republican county convention to put in nomination candidates for the various county offices will be held at the Town Hall one week from this afternoon. It is hoped that the different township committees will see that their respective towns are fully represented. The number of delegates each town is entitled to can be ascertained by referring to the call published elsewhere.

Fred Colwell employed on the steamer Ste. Marie met with a painful accident Monday by which he lost three of his fingers. They were unloading some cars filled with fresh fish at St. Ignace, and Fred's hand got caught in the snatch block, cutting the little finger entirely off, it falling on the deck, and injuring two others so badly that they had to be amputated. Dr. Steinberger of St. Ignace dressed the mangled hand.

Several months ago, in June, our cotemporary astonished the marines by announcing that the sun would soon cross the line and advised them to look out for squalls. The crossing took place last Monday and the squalls were on hand. It is an old saying, and claimed to be true, that whatever the direction the wind is in on the day the sun crosses the equator, that will be the prevailing winds for forty days. In this section the wind was easterly on Monday.

Tuesday John Dodd returned from Hammonds Bay. He had taken his rifle with him and when he returned left it at Sammons & Corlette's fish market. While Mr. Sammons was out the boy who attends for him returned and discovering the gun, boy like commenced examining it, and while in the net Mr. Sammons returned and thinking there was danger went to take the gun, and just as he took hold of it it was discharged the ball passing through the side of the fish market, in through the side of Bartlett's saloon adjoining, put a hole through the large mirror behind the bar and then struck the ceiling falling to the floor.

We would call especial attention to O. M. Clement's new ad. in this issue. He tells an interesting story for the benefit of his patrons.

A Republican caucus for the Township of Benton, will be held at the Town Hall next Wednesday evening to elect delegates to the county convention.

The Mary and Northern Belle the steamers running on the inland route, have both been laid up. The G. R. & I. railroad took off the train connecting with them last week.

Mother Hubbards did not turn out very numerous at the party at the skating rink Monday evening. A good time was enjoyed and the attendance without costume was fair.

Judge Charles R. Brown, of St. Ignace will address the citizens of Cheboygan on political issues Saturday evening Oct 4th. The Judge is an able and forcible speaker. We trust our Democratic and Greenback friends will turn out and hear him.

During the latter part of last winter considerable annoyance was experienced at the Congregational church from smoke from the furnace. The near approach to cold weather was a reminder that fire would soon be needed, and to avert the annoyance the furnace was overhauled this week and it was discovered the top was badly cracked. A new top will have to be ordered from Chicago.

Last week Merritt Chandler was up to his farm on Black Lake and among his beans he found several stools of barley growing, one of which had 20 well developed heads. He took an average head and nubbed out the grains and counted 67 full, plump kernels which would make full 1200 from the one. The beans were planted in June and the stray barley at the same time. The yield, considering the late season planted, is considered a remarkable one and would have undoubtedly been much greater had it been planted in the proper season.

The Methodist conference at East Saginaw closed Tuesday. From a list published in the Detroit Evening Journal of the appointments, we find that Rev. H. C. Northrup comes to take charge of the Cheboygan church. W. M. Campbell Mr. Leith's predecessor takes charge of the churches at Napoleon and Brooklyn, in the Adrian district. Rev. T. B. Leith goes from Cheboygan to Harrisville. Mr. Leith during his year's pastorate of the church in Cheboygan has been an earnest worker and proved a faithful and efficient pastor. The best wishes for his success in his new field, of host of friends will go with him.

Capt. Chas. Kitchen, Norman Lyons and W. W. Smith own a potato patch jointly. Monday night a raid was made upon the patch by some one hungry for potatoes. The best hills in the patch were selected and every tuber from sixty-five taken. It would seem that the digging was done with the hands alone, as only finger marks could be seen, in other words they were clawed out. H. A. Blake says if the same party will come to his potato patch in the day time and invite Messrs. Kitchen, Lyons and Smith to be present, and dig the potatoes in the same manner, he can have sixty-five more hills free and that no fuss will be made about those taken Monday night.

James Harris left at the TRIBUNE office a specimen of pottery of unique design and from the source obtained is evidently of ancient origin. It was dug out of a mound near Douglass lake by Henry Laing. Upon the mound from which it was taken grew a large tree, over two feet in diameter. The specimen, which seems to have been a portion of an earthen jar or urn, shows artistic and clever handiwork. Mr. Laing secured quite a number of specimens, many of them being of entirely different designs from the specimen left at this office. There are a number of mounds in the vicinity, all presumed to have had the same origin as the one opened. The specimen before us shows no evidence of ever having been glazed as is modern pottery. The design seems to have been made by pressing in a mould.
